- Node JS 
- Laravel 
- MySQL 
- Firebase 
- MongoDB 
- RestAPI 
- GraphQL 
- AWS 

## Languages

- Arabic [Native]
- Italian [Native]
- English [Very Good]
- French [Good]

## Summary

Passionate junior Software Engineer with experience in PHP, Java, Laravel, Node.js, React.js, MongoDB, and AWS. Strong knowledge of RESTful APIs, MVC frameworks, database design, and cloud computing. Writes clean, scalable, and testable code. Uses Git for version control and agile methodologies for project management. Eager to learn new technologies and enhance developer skills.

## Work Experience

### Software Engineer

07/2022 -

#### present

#### Sonamak

- Responsible of the development and delivery of software, including testing, documentation, and deployment. I have designed and developed software applications with an emphasis on system reliability, performance, scalability, and security.
- Developed and tested web applications to meet system requirements within estimated timelines.
- Utilized Agile methodology and advanced technologies such as Php, Laravel, JavaScript, React Js, Next Js, Firebase and MySQL to design and develop cross-platform applications.
- Integrating third-party APIs and services with our microservices architecture to extend the functionality of our applications and enable seamless interactions with external systems.
- Created and maintained 15+ web and mobile applications for numerous foreign clients.

## Education History

### Bachelor's Of Computer Science (B.CS.)

**Arab Academy for Science, Technology & Maritime Transport** (Alexandria, Egypt)

09/2018 - 07/2022

GPA: 3.5 (Very Good with Honour)
